Surabaya, Indonesia

Third-year Information Technology student at Institut Teknologi Sepuluh Nopember with experience in organizational activities, committees, and as a teaching assistant. Has a solid foundation in programming, data analysis, and system thinking, with exposure to applied AI concepts. Adapts quickly to new tools and technologies, works effectively in team-based environments, and is motivated to gain hands-on experience across software development and data-driven roles.

Work Experiences

Institut Teknologi Sepuluh Nopember - Surabaya, Indonesia Feb 2025 - Jun 2025

Database System Assistant Lecturer

- Facilitated communication between the lecturer and students by clarifying course materials and guiding them through data-related tasks, including basic SQL concepts using XAMPP for database practice.
- Assisted students in understanding and practicing SQL queries and introductory database workflows during lab sessions and group assignments, including exposure to MongoDB.
- Supported students in translating problem statements into simple database flowcharts using flowchart maker tools such as draw.io

Institut Teknologi Sepuluh Nopember - Surabaya, Indonesia Sep 2025 - Dec 2025

Assistant Lecturer of Law and Ethic of Information Technology

- Facilitated communication between the lecturer and students by clarifying course materials and managing group assignments.
- Provided structured feedback on student performance and handled grade-related inquiries, including maintaining grade records using Excel.
- Filled in for lectures when the lecturer was unavailable to maintain class continuity.

A Renewal Agent - Surabaya, Indonesia Nov 2024 - May 2025

Expert Staff of Design & Documentation

- Created visual assets and event materials while ensuring consistent branding across all media using tools such as Figma, etc.
- Documented event activities through visual records and photos.
- Built a centralized documentation database to ensure other divisions and participants could easily access relevant information.

HMIT ITS - Surabaya, Indonesia Sep 2025

Project Officer of Basic Media Schooling HMIT ITS 2025

- Coordinated the end-to-end planning and execution of the training event with strong managerial skills, including timeline management, task delegation, and team coordination.
- Monitored project progress using Excel and Notion, resolved on-site issues, and ensured the event met quality standards and attendance targets.
- Successfully achieved the Key Performance Indicator by 100%
